

Green Belt Destruction...

Mill Hill – *once its gone its gone*

More Green Belt destruction in Mill Hill

St Vincent's School, The Ridgeway, London NW7 1EJ, have applied for planning permission to level this piece of unspoiled Green Belt land, between the Ridgeway and the top of Woodcote Avenue, Mill Hill.

The application proposes to fill this natural bowl, with **30,000 metric tonnes of landfill material**, a procession of up to **156 dump trucks each day** over a **4 month period** negotiating the narrow streets to level this area of protected Green Belt land and designated Conservation Area.

If the project goes ahead, there will be extensive heavy works traffic in the area, causing noise and damage to local roads. Most sadly there will be the loss of well established and **extensive wildlife and their habitats** in this area, such as badgers, muntjac deer, owls, woodpeckers.

**The purpose of the landfill is to create a raised football pitch
– of which Mill Hill already has plenty!!!**

This is purely a money-making venture for St Vincent's!!

To oppose this application online, please go to:

<https://publicaccess.barnet.gov.uk/online-applications/>

and then enter reference **17/1204/FUL**

Hurry!!!! online objections must be received by Thursday 6th April 2017

You may object after 6th April, but only by email: planning.enquiry@barnet.gov.uk, or by post - see website.
